COMPANY OVERVIEW

About Us

Banshidhar Pharma was set up in 2021 as Manufacturer of API's Intermediates and Fine Chemicals especially in the field of Friedal Crafts Reaction / Bromination and Chlorination. The establishment of the company itself was motivated by a strong desire to provide Quality Bulk Drugs Intermediates in the most cost effective way.

Right our inception, we are focused on exploiting the potential of Pharmaceutical Industry and our articulate vision has made us a significant player in Bulk API's Sector.

OUR PROCESS

Vision

- The company is promoted by Mr. D. M. Modi. He has rich versatile experience with the chemical industry in the field of Manufacturing, Research and Development and administrative levels.

Path Guiding Philosophy

- Export Orientation and international quality has been the primary goal of the company since its inception and the company has achieved its goal with a Planned Production and Export Strategy. “It is Finally the commitment to Quality and Excellence, backed by an effective and strong company marketing set up which has enabled the company to meet the challenges after the liberalization of the Indian Economy.”

Joining Hands with us

- During the past years, we have obtained business from highly reputed buyers all over the world and our plant has been audited successfully as one of the major supplier by many reputed Indian customers and also has been visited by many overseas customers. It is our pleasure to add one more feather to CAP by making your acquaintance.
- We are positive that wide range of API's Intermediates offered by us will definitely satisfy markets demand.
- We look forward to serving you and hope to start business relationship by proper co ordination with your esteemed organization by providing you the products suiting your requirements.

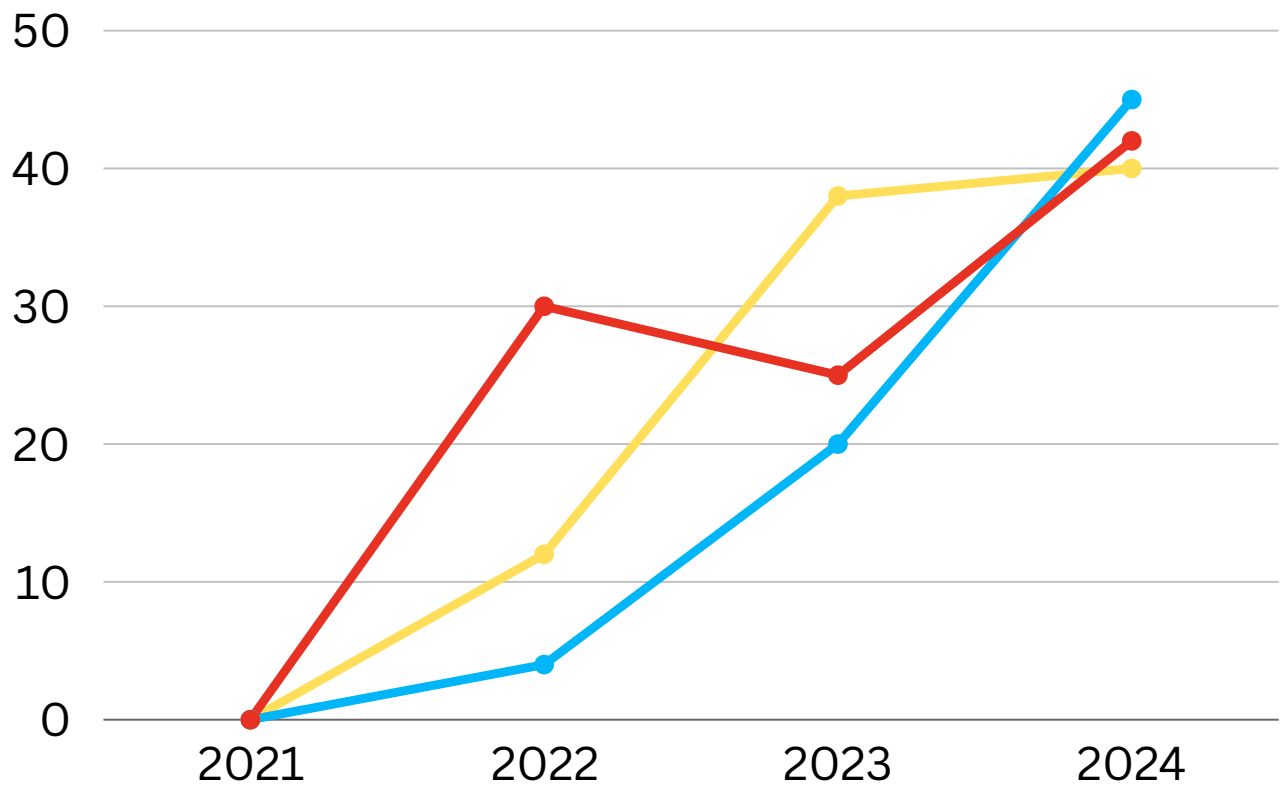

Quality Infrastructure

The corner Stone of our company is Quality. Maintaining World Class Quality Standards is obsession with the top management that percolates down to every level.
